

# Sophia Bennett

*React Developer*

*sophia.bennett@email.com*

## Professional Summary

React Developer with 6 years of experience developing scalable front-end applications using React, Redux, and TypeScript. Proficient in building reusable component libraries, optimizing rendering, and integrating REST/GraphQL APIs.

## Skills

React, Redux, TypeScript, React Query, GraphQL, Jest, React Testing Library, Styled Components, Next.js, State Management, Component Design Patterns

## Experience

React Developer - CoreUI Systems (2020 - Present)

- Built a modular React component library and migrated apps to TypeScript.
- Implemented GraphQL queries and mutations for a reporting dashboard.
- Improved performance through code splitting and lazy loading.

Frontend Developer - AppVision Studio (2017 - 2020)

- Developed e-commerce front-end using React and Redux Toolkit.
- Enhanced accessibility and handled unit testing using React Testing Library.

## Education

B.S. in Computer Science, University of California, Davis, 2016
