

Tessa Morgan

Data Scientist

tessa.morgan@email.com

Professional Summary

Data Scientist with 6 years of experience in statistical modeling, predictive analytics, and machine learning.

Skilled in Python, SQL, and deploying models into production environments.

Skills

Python, scikit-learn, pandas, NumPy, SQL, XGBoost, Random Forest, EDA, A/B Testing, Model Validation, Power BI, Tableau, Flask (Model Deployment)

Experience

Data Scientist - DeepInsight Analytics (2020 - Present)

- Built predictive models for customer lifetime value and marketing campaign performance.
- Deployed classification models using Flask APIs and monitored model performance.
- Led A/B testing design and statistical evaluation.

Data Analyst - StratIQ Technologies (2017 - 2020)

- Performed exploratory data analysis and hypothesis testing on customer churn datasets.
- Generated actionable insights through feature engineering and KPI reporting.

Education

B.S. in Statistics and Computer Science, University of Florida, 2016
