Professional Summary

Junior AI Developer with 2 years of experience building machine learning models and working on data preprocessing pipelines. Proficient in Python, scikit-learn, and basic neural network development.

Skills

Python, scikit-learn, Pandas, NumPy, Data Cleaning, Regression & Classification Models, Jupyter Notebooks, Matplotlib/Seaborn, TensorFlow (Basic), Model Evaluation Metrics

Experience

AI Developer - DataNova AI (2023 - Present)

- Trained classification models on customer datasets for churn prediction.
- Engineered features and tuned hyperparameters for accuracy improvements.
- Visualized results and wrote model evaluation reports.

Machine Learning Intern - InsightMinds (2022 - 2023)

- Assisted in cleaning text and image data for training ML models.
- Created model pipelines and confusion matrix visualizations.

Education

B.S. in Data Science and AI, University of Washington, 2022
