# Reid Dawson

*AI Developer*

*reid.dawson@email.com*

## Professional Summary

AI Developer with 6 years of experience building and deploying machine learning models for classification, NLP, and computer vision. Skilled in TensorFlow, model optimization, and MLOps workflows.

## Skills

Python, TensorFlow, scikit-learn, Keras, NLP (spaCy, NLTK), Computer Vision (OpenCV), Model Deployment, Hyperparameter Tuning, Docker, MLflow, Pandas & NumPy

## Experience

AI Developer - SynapTech AI (2020 - Present)

- Built deep learning models for text classification and facial recognition.

- Optimized training pipelines and deployed models using Flask and Docker.

- Led experiments to benchmark model performance and drift detection.

Machine Learning Engineer - VizionData (2017 - 2020)

- Trained regression and classification models using XGBoost and scikit-learn.

- Worked on NLP feature engineering and model explainability.

## Education

B.S. in Artificial Intelligence, University of California, Irvine, 2016
